# Caleb Nyong

Frontend Web Developer || Product Designer (Open for full-time opportunities)  
Lagos State, Nigeria

## Summary

Hello, I'm Caleb Nyong, a Software Engineer specializing in Frontend development, and also serving as an Educator and Content Creator. I have a deep passion for delving into fundamental engineering concepts across the Web, whether it's through attending conferences, listening to podcasts, or devouring online articles.

One important aspect about me is my commitment to the 70/30 rule. I firmly believe in approaching each endeavor with 30% expertise and 70% eagerness to learn and expand my knowledge and skill set.
